STILL A QUEER WORLD  
NEEDY, BUT NOT ROMANTIC  
SOME SCIENCE  
A HOME MADE NIAGARA

—By Arthur Brisbane—  
(Copyright 1930 By King Features

You are living in a world still primitive. Brazil reorganizes itself by violence, just as this country did 134 years ago, and the Brazilian mob in Sao Paulo tears down its Cambury prison, as the mob of the French revolution tore down the bastille.

In the Arctic, German scientists, traveling peacefully on their dog sleds, were suddenly abandoned by their Greenland guides who informed the Germans that there were demons on the ice. They knew it by the sudden change in the weather. The Germans tried to persuade the Greenlanders that demons live in a hot country and couldn't stand the ice, but the Greenlanders know better. Their hell is frozen, not hot.

Mr. William Foy observes, with mild surprise, the difference between these times of home distress and a certain period in the great war. "Do you remember," says he, "what we did for the Belgians and the warring factions?"

There is quite a difference. Then the Red Cross, Knights of Columbus, Salvation Army were raising scores of millions for Europe. And our national government practically bulldozed the people into buying ten thousand millions worth of bonds, the proceeds sent to Europe.

However, little Belgians, cunning Armenians, Turks, Chinese, Russians and such, combined with war, are romantic, where there is nothing particularly romantic about an ordinary American out of work and worrying about his family. In fact, you are told that the government itself cannot do anything about the present distress. Public generosity must do everything. It probably won't do much. And the government may change its mind if the winter turns out to be as is anticipated.

There was a time in Queen Elizabeth's day when you had to change your ideas of the world's geography. Often new lands were discovered from week to week.

Now, with geography well known, men transfer their interest to the interior of the atom, where change and overwhelming new theories appear almost every month.

Dr. Dirac, young physicist of Cambridge, makes even Sir Oliver Lodge dizzy with his announcement that the proton around which the electrons revolve "may be nothing but a hole."

With the theory that space is everything and matter doesn't count, Einstein has made us familiar. The theory that "a perfect vacuum combines all the states of negative energy" is too much for the average mortal.

Consider Mount Wilson's description of a group of spiral nebulae, receding from the earth at a speed of 7,200 miles a second, a new speed record, even in astronomy. And these objects, moving so fast that they could go around the world in three and one half seconds are not small speeding bullets. Each nebula is a giant cluster of stars as big, probably as the Milky way in which our sun, with all its planets, is only a grain of dust. Nature does wonderful things, but in proportion to his size, man also does well.

## LEGION HEADS OUTLINE PLANS FOR MARDI GRAS

Former Service Men Will  
Cooperate With  
Merchants

## SEVEN DRUM CORPS IN NIGHT PARADE

Judges To Vote On Prize  
Winners Under Lights  
Of Stadium

Complete plans for the mardi gras festival, scheduled here Friday night, were announced today by James H. Wilson, commander of Charles H. Carey post, No. 56, American Legion, and Charles Haldi, member of the post's executive committee.

The mardi gras celebration will be held under the auspices of the Legion post with cooperation of Salem merchants who are offering prizes to winners in the mummies' parade which will be one of the feature attractions of the evening.

The festival is planned by the post as a district affair, invitations having been extended to residents in Columbiana, East Palestine, Leontonia, Lisbon, Canfield, Washingtonville, and other surrounding communities to participate.

It is being arranged as one of the most pretentious Halloween festivals in the city's history.

Seven drum corps, coming here from Sharon, Pa., Girard, Struthers, North Canton, Carrollton and Kent, together with the Salem Boy Scout corps and the Salineville Legion band, will march in the parade. More than 1,000 mummies are also expected. Requests have been issued that as many lodges as possible from the district appear in the parade in a body.

The parade will form in front of the Legion home at 7:15, march through downtown streets and to Reilly athletic stadium. The floodlight system of the athletic field will be used during judging of mummies and awarding of prizes to winners.

Judging will be held from three separate stands. Mummies competing for various places will be designated to each of the stands and to qualify for prizes they must appear at the proper stand.

Arrangements to hold judging at Reilly stadium were completed through special arrangements with the board of education and the Canadian-American Forestry company. All spectators will be expected to take seats in the bleachers.

## SHARP SPEAKS AT MCKINLEY

Attorney's Address Marks  
Opening Of Education  
Week

Attorney Joel H. Sharp discussed "Education" when he gave the principal talk at a meeting Monday evening at the McKinley school, which marked the opening of the observance of Education week here. The pupils of the school had part in the program, giving these numbers: Story by Bobby Wood; "Rainy Day Song," Carl Capel and Frank Greenstein; tap dance, Joane Carnes; story by Vernon Weingart; "Doll Song," Betty Rose, Marjorie Byers, Joane Carnes, Janice Miller and Josephine Mounts; song by a group of second grade children. About 125 people attended the meeting. The teachers in each room had displays of the children's work and the parents viewed the exhibits before and after the program. Rev. Sidney Mayer, pastor of the Methodist church, will give the address at the Columbia street school at 7 tonight.

## BOARD POSTS VOTE NOTICES

Columbiana County To Cast Ballots  
On 17 Special Issues At  
Nov. 4 Election

Notices of the general election scheduled in Ohio next Tuesday were posted in city hall by employees of the county board of elections today.

The notices announced all state and county tickets together with special issues which will face Salem voters at the election.

Together with state and county tickets which involve competition for offices between Republican and Democrat candidates, Columbiana county voters will cast ballots on 17 special issues, three of which will be submitted to electors in Salem.

## G. O. P. GROUPS WILL MEET IN POTTERY CITY

Ex-Service Men Plan Organization To Back  
Litty

EAST LIVERPOOL, Oct. 28.—Two important Republican meetings will be held here tonight, when the Ex-Service Men's League of Columbiana county and the East Liverpool Women's political organization convene in separate sessions.

The Ex-Service Men's organization will meet in the American Legion hall at 7:30, while the women's unit will gather in the municipal courtroom at 8 o'clock. Prominent state and county officials are scheduled to address both gatherings. Republican candidates will appear as guests at the women's meeting over which Mrs. Lia Marshall Cronin will preside.

Lynn Riddle of Lisbon, will be chairman at the service men's rally. The veterans, who have endorsed John C. Litty of Salem, in the race for the county treasurer'ship, will meet to discuss further interest in the Salem man's candidacy. An organization to work in behalf of Litty will be formed.

## SCHOOL SENIOR TO GIVE TALK

R. D. Walter, Pittsburgh to Occupy  
Presbyterian Church Pulpit  
Sunday Morning

R. D. Walter, of Pittsburgh, senior at the Western Theological school there, will preach at the Presbyterian church Sunday morning. It was announced today. Walter served as supply pastor of this church during the summer months. This church will observe Family day next Sunday as a part of the Loyalty Crusade program planned for the next seven weeks.

## POTTERY HEADS TO HOLD MEET IN CLEVELAND

Chiefs Of Salem Concern  
Will Attend Annual  
Convention

## ASSOCIATION WILL CONVENE NOV. 11

F. H. Sebring Slated For  
Advancement To Vice  
Presidency

F. H. Sebring, president and general manager of the Salem China company, and Floyd W. McKee, secretary-treasurer of the concern, will attend the 55th annual meeting of the United States Potters' association which will be held in Cleveland Tuesday and Wednesday, November 11 and 12.

Sebring is third vice-president of the national association. At the organization's election of officers he will be elevated to the position of second vice-president. He succeeded Homer J. Taylor of the American Chinaware corporation, Taylor, in turn, will be advanced to the first vice-presidency, at present occupied by James M. Smith, president of the Shengango Pottery company of New Castle, Pa.

Smith will succeed Earl R. Crooks of Crooksville as president. More than 50 manufacturers of chinaware from Ohio, Pennsylvania, West Virginia, New Jersey and Indiana are expected to attend the two-day session. The officials of the Salem concern expect to be present at all sessions of the convention.

This year's meeting is being held one month earlier than in previous years because of the wage conference with the National Brotherhood of Operative Potters which is scheduled early next month. The forthcoming wage discussion will be one of the principal matters of business to be placed before delegates at the association's meeting.

Joseph M. Wells of the Homer Laughlin China company, Newell, W. Va., will give the annual report of the labor committee's dealings at the August conference with Brotherhood representatives at Atlantic City while other committee chairman will also submit reports.

## SCOUT PLANS ARE OUTLINED

13 Northern Columbiana  
County Scoutmasters  
Meet In Salem

Scouting activities for the winter were planned at a dinner meeting of 13 scoutmasters of northern Columbiana county, Monday evening at the Katherine-Rose Tea Room, West Pershing street.

All Salem troops will participate in the Armistice day celebration and a large float will also represent scouting in the parade.

Preliminary plans were made for an exhibit of scouting activities to be held in Salem on anniversary week in February. The exhibit will be held in East Liverpool later in the week. All troops in the county will be entered in this event.

Charles E. Polton, county scout executive, described the Region Four Patrol Camparall held in Columbus last August, and plans are being made to hold a Patrol Camparall in this county soon. The winning patrol will be sent to Columbus next summer to participate in the Region's Camparall.

## MAN ARRESTED ON RUM COUNT

Albert Fisher, West Wilson Street,  
Pleads Not Guilty To Charge  
Of Possession

Albert Fisher, West Wilson street, pleaded not guilty to a charge of unlawful possession of intoxicating liquors on arraignment before Mayor John M. Davidson this morning.

Fisher was arrested in a raid conducted on his home by Patrolman William Beardon and Ralph Stoffer Monday afternoon. Five gallons of whiskey are reported by the raiding officers to have been confiscated at the home.

It was Fisher's second appearance in court here, charged with a violation of city liquor ordinances, within the last three months.

He was released on \$500 bond by Davidson. The date of his hearing was not definitely set.

## Williams Will Face County Grand Jury

Fred Williams of Pittsburgh was bound over to the county grand jury on his plea of guilty to a charge of carrying concealed weapons in Mayor J. M. Davidson's court Monday. His bond was fixed at \$1,000.

He was arrested Sunday by Patrolman Ralph Stoffer as the result of an argument during which Williams is alleged to have pointed a revolver at a woman, police say.

## Winner In Milk Maid Marathon

Miss Dorothy Wilhelm, 18-year-old representative of the Wabash Railway, who won the National Dairy Show's milk maid marathon at St. Louis, Miss. She milked 29 cows in one hour for a total of 249 pounds of milk.

## Construction Work On Library Finished

Completion of general construction work on the addition to the Salem public library was announced by members of the library staff today.

Additional work remains to be completed, Mrs. Frank W. Lease of the staff said, making it impossible for the library board to set any definite date for dedication ceremonies.

It appeared probable today that all work at the annex will not be completed for at least seven weeks while it may not be ready for occupancy before Jan. 1, 1931.

Finishing of woodwork in the addition and the laying of the floor is now in progress.

## MRS. W. J. GLASS SUCCUMBS HERE

Had Lived In Salem 38  
Years; Husband, Four  
Children Survive

Mrs. Mary Elizabeth Glass, 79, wife of W. J. Glass, died about 10:30 a. m. Tuesday at her home on North Broadway. She had been seriously ill since Saturday. Death was attributed to complications.

Mrs. Glass, daughter of David and Mary Smith, was born and reared at New Alexander. She had lived in Salem for about 38 years and her family is widely known in the city. She had been a member of the Christian church since girlhood.

She is survived by her husband; one son, A. W. Glass, Salem grocer; three daughters, Mrs. J. B. Bushman, Jennings avenue; Mrs. Thomas Carr, Salem, R. D.; and Miss Ora Glass, at home; four brothers, James Smith, Alliance; Marcellus Smith, Minerva; W. T. Smith, Salem; Samuel Smith, Sebring; four sisters, Mrs. Laura Temple and Mrs. Clinton Haskins, New Franklin; Mrs. Frances Albright, Sebring; Mrs. Will Sanor, Hanoverton, and three grandchildren and seven great grandchildren. Funeral arrangements will be announced Wednesday.

## Rev. Floyd W. Nease Dies In Pittsburgh

Rev. Floyd W. Nease, president of the Eastern Nazarene college at Wollaston, Mass., who died Sunday night in a Pittsburgh hospital where he underwent an operation Saturday, had been scheduled to speak at the Salem Nazarene church Wednesday evening. Rev. Nease's illness came on suddenly and his death comes as a shock to the members of his denomination.

Rev. Nease spoke at a ministers' meeting here three weeks ago Monday. His body was sent to Boston for burial. He is survived by his widow and two sons.

## RESCUE CREWS ARE HELD BACK BY GAS FUMES

Officials Have Abandoned  
Hope For Saving Any  
Of Crew

## DEBRIS KEEPS AID FROM LOW LEVELS

Entombed Men Held Prisoners  
2,500 Feet Below Surface

(By Associated Press)  
McALESTER, OKLA., Oct. 28.—Gas today drove rescue workers from the lower levels of the Wheatley No. 4 coal mine, tomb of 29 miners since an explosion last night and officials virtually abandoned hope that any of the trapped men would be found alive.

The names of the dead and trapped miners as given out by the company, follows:

William Donnelly, Nlek Zontic and his son, Nick Zontic, Jr., Sam Hoberta, B. Lewis, Barney Blue, Eam Cole, J. P. Hamman, Marcus Ross, Joe McCauley, Richard Faulkner, Bob Corrier, Frank Husted, Seth Heathcock, Steve Deugas, Tony Campbell, John Wright, Harry Lehman, Bob Louero, Dominic Molet, Ernest Fears, Frank Poppy, T. B. Meredith, W. H. McMurry, Tom Holt, Life McBebe, Phillips Bietz, John Ghigo, Homer Bowd and August Marco.

All except four are married. Most of them have families.

## One Man Killed

One man, William Donnelly was killed at the head of the mine by the blast. Bodies of four trapped miners were sighted on the 16th level. Several rescue workers were overcome by gas, and John Moore, was carried to a mine. The damp sent him back to the level of the mine where ventilation was good. Efforts were being made to obtain brattice cloth to curtain off mine entries and aid ventilation lower down.

Workers estimated it would require six men from five to six hours to carry one body from the lower levels, because of mass of debris to be traversed.

Miller D. Hay, chief mine inspector, who entered the workings on his arrival here early today from Ada, Okla., was authority for the statement there was little hope for the men trapped in the 16th, 17th and 18th levels.

Mining about the entrance, were almost 2,000 excited persons. Among them were the families of the trapped men. They realized there was scarcely a chance that any of the men would be brought out alive.

Lighting System Wrecked  
Beneath the workers, somewhere between the 2,500 and the 3,000 foot levels, were the entombed men, probably dead, possibly fighting for their lives in the gas filled tunnels. Every possible avenue of communication with them had been cut off by the blast. The electric lighting system was wrecked.

Donley was near the mine entrance when the explosion, believed caused by accumulated gas in the shaft, occurred. His work was to drive the coal cars in and out of the mine and he had just returned from a trip to the 2,500 foot level. He was killed instantly. His body was recovered.

Scenes of wild confusion ensued about the mine entrance. Screaming women and children were driven back by hurriedly formed squads of pickets. The rescue crews were formed rapidly, gas masks procured and the work of digging away the debris began.

Officials of the mine, which is owned by Marshall Dana of Kansas City and is located on Oklahoma state prison property, held little hope that the entombed men would be found alive.

They did not believe the miners possibly could be reached before noon today and said that unless they could slip into some fresh air pocket they would die almost instantly from the poisonous gas.

## Jewel Ens To Lead Buc Nine Next Year

PITTSBURGH, Oct. 28.—Jewel Ens will pilot the Pittsburgh National league baseball team again next season, the Pirate club official announced today.

Ens, who had his first experience as a big league manager in the closing days of the 1929 campaign and during the 1930 season signed a contract to pilot the Pirates for one more year. He was a coach of the Pittsburgh club before he succeeded Donie Bush as manager when Bush resigned late in the 1929 season.

## REBECK BETTMAN

Attorney General Gilbert Bettman will receive an overwhelming vote of confidence at the polls Nov. 4. His services to Ohio during the 21 months he has occupied office mark him as one of the state's most conscientious and brilliant officials. Like Governor Cooper, Mr. Bettman holds one rule essential to success in public office—hard, conscientious work.

As head of the state's most important law office, Mr. Bettman has established a new record of accomplishment. Unlike some of his predecessors he performs the functions of his office in person. In his appearance before the United States supreme court he has distinguished himself by his brilliance and excellent preparation.

Mr. Bettman enjoys a wide personal acquaintance among the people whom he serves, which is an important factor in his success.

Among the outstanding court victories won by Ohio's attorney general, and one which endears him to the area bordering on Lake Erie, was that in the case of the Chicago water steal. Largely by reason of his own intelligent persuasion, Mr. Bettman convinced the court that the lowering of Lake Erie should be stopped.

Mr. Bettman also gained a decision in the supreme court to relieve the state from paying damages to private corporations in connection with the abandonment of canals for highways purposes. This decision saved hundreds of thousands of dollars for the state.

The East Ohio excise tax case, also won by Mr. Bettman, deserves special mention. This case, which he won in the United States district court, resulted in public utilities having to pay excise taxes in connection with the sale of West Virginia and Pennsylvania gas in Ohio to the extent of approximately \$1,600,000 a year.

In the state office building case Mr. Bettman defeated an injunction which sought to stop the city of Columbus from deeding property to the state for a building site, thereby saving the state a large sum. His courageous and efficient handling of the Cleveland election fraud cases distinguished him, as did also his instruction to county treasurers to accept current tax payments, instead of holding to the old, usurious system of demanding payment of all past delinquencies or none.

Mr. Bettman, successful in private practice and a public servant by choice, has served capably for one term. He is asking for another. The voters of Ohio can show their appreciation by giving it to him.

## What Others Say

### MR. LEGGE FACES FACTS

Having taken as much punishment as any public man in the United States, in the way of unfavorable comment, Mr. Alexander Legge, chairman of the federal farm board, now goes even farther in his startling announcements. In a few years, he tells us, the United States will not export grains for Russia can sell them so cheaply that we will be driven out of world markets, and our production limited to what we can consume domestically.

This is bad news, for farmers who have relied on grains as their staple crop, and for others who point to our grain exports of some \$375,000,000 a year as a factor in our prosperity. It is quite possible that Mr. Legge is correct, that wheat and corn will cease to be export crops for the United States.

However, his prediction depends on the assumption that Russia can continue to produce a large wheat crop year after year without giving the peasant farmers there a reasonable price for it, and on the further assumption that no serious bars against Russian wheat will be set up in important consuming countries. Both of these assumptions may prove to be wrong.

At any rate, the underlying principle involved is worth noting carefully. The United States has ceased to be a frontier country capable of producing staple goods at low prices for export, with the notable exception of cotton, and must rely in future on exports of highly processed specialty goods. As a foundation for domestic economic life, agriculture remains the basis of the American system. As an integral part of our foreign trade, it is doomed to a gradual, or even a rapid, extinction—Cincinnati Enquirer.

## HEALTH

By Dr. Royal S. Copeland

### Calm Essential In First Aid

Quite frequently we are forced to take care of someone who has met with an accident and is bleeding. No one of us enjoys this experience and if the choice of going for the doctor or staying with the bleeder is given, I know what most of us would rather do. The injured person is usually just as timid and frightened as you are at the sight of blood. He is bleeding and the doctor has been called. Everybody is distressed and worried. What shall we do until the medico comes?

We are frightened for fear the patient will bleed to death before the doctor arrives. The friends get excited and almost always the patient gets excited. The more you get excited, the more he does.

### "First Keep Cool"

How well I recall a scene in Medical College many years ago. The professor was asking his students as to the proper first procedure in a case of bleeding. Many excellent and correct outlines of the procedure as recited in the text books were given by the anxious-to-please students.

"No, no," stormed the professor, and to the amazement of all stated, "The proper care is first to keep cool. After that," he said, "stop the bleeding."

If we would always remember this and act upon it, there would be less excitement whenever such emergencies arise. A life may be saved in consequence.

Various methods of stopping the blood artificially have been described by the surgeons. Which one to use depends on the type and site of the bleeding.

As a rule, bleeding will stop in a few minutes anyhow, if the patient is kept quiet. The firm pressure of a dressing may do the trick. Such a dressing soaked in very hot water will often stop the bleeding.

If the bleeding continues and you are doubtful as to the vessel that is responsible, something else must be done. Then a "tourniquet" must be applied.

### Apply a Tourniquet

A tourniquet is simply a constricting band placed around the injured limb between the wound and the heart. This pressure shuts off the flow of blood to this part of the body. It consists of a pad, which serves as the pressure part, and a band. The pad may be made of a small stone, a piece of wood, or other hard object, wrapped in some material to make it less rough.

If sufficient pressure cannot be exerted by hand, it may easily be aided by placing a stick under the under and twisting. But you must be careful not to exert sufficient pressure to cause discoloration or marked pain. Always have a physician inspect your work and finish the job.

Remember you are only treating the injured person until the doctor arrives. If no one has come within the hour, and the tourniquet is on, release it. Allow the tourniquet to remain loose but in place. If the bleeding appears again it may be tightened.

If the tourniquet is left on a wound too long death of the nearby tissues will take place, due to cutting off the blood supply. This is a serious matter and its danger should always be borne in mind.

And don't forget to keep cool!

## Twenty Years Ago

(Issue of Oct. 28, 1910.)

The plant of the American Case & Register company has been very busy the past several weeks and employees have been working overtime.

During the terrific gale which passed over this city early Wednesday morning a large part of one of the high smoke stacks on the boiler room of the plant of the American Steel & Wire company was blown over.

Greenhangers expressed opposition to the establishment of a county experiment farm at a meeting Wednesday evening. Making county farmers wary, on the proposition at the next session.

Kensington—The potato harvest is on among the growers of this section, the crop being about two-thirds of the average one. J. W. Cox, grain and produce dealer, has shipped an average of one carload of potatoes every day for the last 30 days. For the last six weeks an average of two carloads of tomatoes has been shipped from Kensington to Pittsburgh.

Eleanor Stanley has been absent from school as a result of tonsillitis. C. E. Hobson was in Chicago on business Friday and Saturday.

Mrs. Alva Bailey of Harrisville, visited her brother, E. M. Steer and family recently.

Mrs. Helen Phillips of Cleveland, spent the week-end with her parents, Rev. and Mrs. H. C. Phillips.

Lorin Stanley bought the T. L. Stanley farm south of Westville recently.

Mrs. Sadie Carter of Kansas, who has been visiting relatives and friends here, was honored at a dinner Sunday at the home of Mr. and Mrs. Clifton Shreve of Goshen. About 35 of the children and grandchildren of Mrs. Mary Stanley were present. Those from Damascus were Mr. and Mrs. Merle Stanley and son Mr. and Mrs. Ernest Stanley, Mrs. Mary Stanley and Mr. and Mrs. Lorin Stanley.

Miss Mildred Stanley entertained the Junior class of the high school Saturday evening. Twenty-six Juniors and the teachers, Misses Dorothy Patton and Adrienne Spahn were present. A lunch was served.

Charles Peters of Cleveland, graduate of Goshen High School, visited the high school Monday morning.

## The Stars Say

For Wednesday, Oct. 29

Although there is a basis for prognosticating a very lively and eventful day with much substantial progress and achievement through dogged enterprise and faithful application, yet there is a sign of restlessness agitation and probably much stirring about. Also there is a sign of some discord or friction in employment, or in a clash with those in authority, also a menace through violence or accident.

Those whose birthday it is may prepare for a lively year, with some change or removal, possibly anxiety about employment, but advantageous contacts with large corporations or secret bodies and through diplomacy or stratagem. The purely personal affairs should also flourish and be happy. A child born on this day should be versatile, energetic, forcible and probably impetuous, although having as well peace and migrating manners and affectionate ways.

NEW YORK, Oct. 28.—The brief flicker to fame these anxious days not only puzzles over-night celebrities but even astonishes the public glancing at their day feet. This transition does not apply solely to fortunate of stage screen and radio, but to all forms of "public-contact" endeavor.

Gertrude Ederle, swimming the English channel and looming large in the headlines for days, passes along New York streets almost unnoticed to take her train to Rye, where she is a swimming instructor. The evanishment of air heroes is startling. Not even Lindbergh ties traffic in a knot any more.

The Guy Empey, the Eddie Rickenbacker, the Michael Arlen and others as deservedly illustrious are befogged by a volcano of indifference. The warm hand becomes a cold shoulder. The celebrity is a "ten day wonder" and there he goes! Two ladies last night were unable to recall the exact exploits of Ruth Elder.

A celebrity today—with exceptions of course—wears out his welcome by a careless promiscuity. If he is the hero of some extraordinary achievement he is immediately besieged by those who want to traffic in his sudden popularity, to capitalize an often hard-won halo.

He is asked to prattle over the radio, illuminate the news reels, endorse cigarettes, shaving soap and such. He must pose for the tabloid, and rotogravures. He is invited to be a guest of honor at "celebrity nights" as supper clubs. And is usually offered "a week at the Palace."

If he adopts the theory he must make hay while the sun shines, his finish is usually quick. The public would become a jaded Nothing is so mentally cloying as an overdose of celebrities. Humanity being what it is, admiration curdles into a fine derision over night.

The explanation requires no analytical acerbity. Celebrities fail to master the obvious lesson of attracting attention by the inverse process of shunning it—so conspicuously effective with J. M. Barrie, Julia Arthur, and Maud Adams. Greta Garbo's big box office draw is her studied isolation.

But underneath this mushroom celebrity collapse is something deeper, something sadistic. Lately America has developed a fiendish flair for flushing mediocre people out of obscurity, placing them on a pedestal and toppling them over to the accompaniment of hoisting huzzahs.

John Gilbert is an example of Fate's flippancy. Clara Bow another. The list is long. The celebrity complex swept the nation like a spark in dry grass and many who fell for its dubious charms have paid a tragic price. The truth is that such celebrities—again the exception—had little on the ball at the top-up. They burst with egotism and deflated like suddenly pricked balloons.

The people who endure have always been self-effacing, from the Master on down the ages. Humility is a lodestone that draws us all. The closest confidants of great men are invariably tight-lipped publicity

shunners. And what set me off preaching this way?

A little stocking subtlety was salvaged today from a magazine ad. Most men always fall for hosiery announcements. This one warns: "Adorn your legs with dullness—dullness that is provocative." You rather expected it to say something

about "covering a multitude of shins"—and it did not disappoint.

The most pluperfectly exclusive and yet the least publicized social colony around New York is reputed to be that of Tuxedo Park, which surrounds a sparkling lake at Ramapo Hills. Incidentally it was the first place where the bob-tailed

evening coat, known as the Tuxedo, was introduced to America.

Someone writes me of a railroad detective prodding a sleeping tramp along a yard track. The tramp looked so puzzled, his eyes falling on a box car with its tonnage announcement, and exclaimed: "Capa City! Where the hell is that?"

From Tampa: "A gentleman named O'Sullivan gives you a jousting for wearing spats in his Florida civic magazine. Do you know him? No. But I wear things appropriately named for him." Copyright, 1930, McNaught Syndicate, Inc.

## Fundamental Facts

## Fourth-Surplus: Reserve Fund

Not only has The Home earned and paid its dividends of five per cent or more year after year for forty years, but it has also built up a surplus of more than TWO MILLION DOLLARS for the further protection of its savings accounts. This surplus is about equally divided between two funds—the reserve and the undivided profits.

The reserve fund is required by the laws of Ohio. Not less than five per cent of the net profits of each year's business MUST be placed in this fund, and The Home has always added something to the amount required by law. The money in this fund is not kept idle, but is LOANED OUT WITH OTHER FUNDS and helps to increase the total profits of the business.

Once money is placed in the reserve fund it cannot be withdrawn for any purpose whatsoever except to pay losses. For about twenty-five years this company ran along without a loss, but more recently some losses have occurred and have been charged against this fund. It is significant, however, that the additions made to the reserve fund EACH SIX MONTHS have been greater than the losses charged against it. The fund is continually increasing and on July 1 of this year stood at \$1,065,000.00.

# WHEN PAIN COMES...

Two hours after eating

WHAT many call "indigestion" is very often nothing but excess acid in the stomach. The stomach nerves have been over-stimulated, and food sores. The corrective is an alkali, which neutralizes acids instantly. The best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard anti-acid with physicians in the 30 years since its invention.

One spoonful of this harmless, tasteless alkali will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this more pleasant way. A small bottle is sufficient to show its merit.

Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for more than 30 years in correcting excess acid. 25c and 50c a bottle; any drugstore. Complete directions for its many uses, are enclosed with every bottle.

The Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the Phillips' name on the bottle.

## DAMAGE SUITS ARE ADJUSTED

East Liverpool Man To  
Pay \$6,550 As Result  
Of Crash

LISBON, Oct. 28.—Four damage actions recently filed in common pleas court as a result of an automobile accident on U. S. Route 20, in Beaver county, Pa., south of Chester, W. Va., at 7:30 o'clock the evening of Aug. 8, last year, against Max E. Grumet of East Liverpool, have been adjusted without jury trial. A total damage of \$6,550 is to be collected from Grumet.

A judgment has been entered in the case of Pearl Miller against Grumet for \$500 and costs, and in the case of Luella K. Jiler, now deceased, a judgment for the estate for \$3,500 is shown. Elsie Stevens has been awarded a judgment of \$1,750 and costs and Thomas Dray has recovered a judgment for \$800 and costs.

The petition of each of the plaintiffs filed by Brookes & Thompson shows that Grumet in attempting to pass a car that was parked on the road applied the brakes on his car, causing it to skid and crash into a car being driven in an opposite direction and in which all the plaintiffs were passengers.

Grumet set up that the accident was unavoidable, and asked that the court dismiss the petition of the plaintiffs.

## Night Coughing Quickly Relieved

Famous Prescription Gives Almost  
Instant Relief

Night coughs or coughs caused by a cold or by an irritated throat are usually due to conditions which ordinary medicines do not reach. But the very first swallow of Thoxine, a doctor's prescription, is guaranteed to give almost instant relief. Thoxine works on a different principle, it goes direct to the internal cause.

Thoxine is pleasant tasting and safe for the whole family. It will give you better and quicker relief for coughs or sore throat than anything you have ever tried or your money will be refunded. Put up ready for use in 35c, 60c and \$1.00 bottles. All druggists. Adv

PROPOSED AMENDMENT TO THE  
CONSTITUTION OF OHIO.

ARTICLE XII, SECTION 9.

PROPOSING TO AMEND SECTION 8 OF  
ARTICLE XII OF THE CONSTITUTION  
OF THE STATE OF OHIO, IN  
REGARD TO THE DISTRIBUTION OF  
INCOME AND INHERITANCE TAXES.

Be it enacted by the General Assembly of  
the State of Ohio, three-fifths of the  
members elected to each house con-  
curring therein:  
That there shall be submitted to the  
electors of the state, for their approval or  
rejection, in the manner provided by law, at  
the election to be held on the first Tuesday  
after the first Monday in November, 1930,  
a proposal to amend section 9 of article XII  
of the constitution of the state of Ohio, to  
read as follows:

ARTICLE XII.

Sec. 9. Not less than fifty per centum  
of the income and inheritance taxes that may  
be collected by the state shall be returned  
to the county, school district, city, village  
or township in which said income or in-  
heritance tax originates, or to any of the  
same, as may be provided by law.

Adopted April 6, 1929.

UNITED STATES OF AMERICA,

STATE OF OHIO.

Office of the Secretary of State.

I, CLARENCE J. BROWN, Secretary of  
State, of the State of Ohio, do hereby certify  
that the foregoing is copied from and care-  
fully compared by me with the original Joint  
Resolution adopted by the 88th General As-  
sembly of the State of Ohio on April 6th,  
1929, and now on file in my office and in  
my official custody as Secretary of State.  
Resolution was filed in the office of the Sec-  
retary of State on April 10th, 1929, and  
it is my duty to amend section 9 of article XII  
of the constitution of the state of Ohio  
relating to the distribution of income and  
inheritance taxes.

IN WITNESS WHEREOF, I have here-  
unto subscribed my name and affixed my  
official seal at Columbus, Ohio, this 18th  
day of September, A. D. 1930.

### MUSIC STUDY CLUB

Mrs. Bessie Hendricks, president of the Music Study club, who attended a meeting of the state Music federation officers and district presidents, at Cincinnati recently, gave an interesting report at a meeting of the club Monday afternoon at the home of Miss Anna Cook, South Lincoln avenue.

Nineteen members attended and there were two guests. Mrs. L. W. King, who was in charge of the program, opened it with a paper on "Origin and History of Opera."

Miss Sylvia Harburger contributed two piano solos, "Allegretto" from Haydn Symphony and "Sonata Movement" (Schumann). Her encore was one of her own composition, an original number.

Mrs. Church of Columbiana sang two solos, "Her Shadow" (Cadman) and "Sweet Mystery of Life" (Schumann). Her encore was one of her own composition, an original number.

On Nov. 10 the members will meet with Mrs. Elmer Coyle, Columbiana.

**BIRTHDAY DINNER**  
Mr. and Mrs. Oliver Blythe, of Ohio avenue, were hosts Sunday at their home, the affair being a dinner in honor of the 79th birthday anniversary of Mrs. Blythe's mother, Mrs. George McDonald, of the Depot road. A centerpiece of yellow chrysanthemums graced the table.

Among the guests was Mrs. Lucia Gardner, 84, of Salem, who in former years was a neighbor of Mrs. McDonald.

About 25 relatives and friends were in the company, including guests from Alliance, Garfield and Lisbon.

**GOLD STAR AUXILIARY**  
Plans were made for an Armistice day celebration at a meeting of Gold Star auxiliary Monday evening at the hall, East State street.

The members will take part in the Armistice day parade. That evening they will have a cover-dish supper at the hall.

Installation of officers will claim attention at a meeting on Nov. 10. All members are asked to be present.

**CLEVER CARD CLUB**  
Three tables of five hundred entertained when Clever Card club associates were guests of Mrs. Don String Monday evening at her home, East Pershing street. Mrs. Jacks Hicks and Mrs. Ida Alaback shared honors in the games.

Mrs. Malvern Spencer of Akron and Mrs. Pearl Nusbaum, of Salem, were guests of the club.

**D. OF U. V. MEET**  
One application for membership was received at a meeting of Mary Ellett tent No. 70, Daughters of Union Veterans, Monday evening at the hall, East State street.

The district convention will be held Friday in Canton and the drill team of the Salem tent will put on a drill.

**FAMILY DINNER**  
Mrs. Frank Christy of Ellsworth avenue entertained at six o'clock dinner Monday evening honoring Mr. and Mrs. J. B. Zeigler of this city, who have returned from a two months' stay in California.

Edward Boyer Smith, of Portland, Ore., called on Mr. and Mrs. Charles Kling and other friends here Monday enroute to his home.

Smith was employed at the A. W. Jones & Company store at one time.

Mrs. James Walker and daughter Doris Helen of Franklin street, visited in Pittsburgh Sunday where they visited Mrs. Walker's mother, who is ill in the West Penn hospital.

Mr. and Mrs. A. H. Stratton, East Seventh street, spent Tuesday afternoon in Alliance.

Miss Alice Carey spent Monday in Cortland.

Frank Coy and Bert Lamborn of Salem, were in Cortland Monday.

## GRANGE FAVORS TAX PROGRAM

### More Equal Distribution Is Suggested By Unit

A resolution which has been adopted by Mahoning county grange "favors a tax program which diversifies sources of revenue and distributes the burden more equitably among all who should pay taxes."

Personal income tax and police protection for lives and property in rural Ohio are favored.

A part of the resolution reads: "We favor drivers' licenses after the enactment of a state police law. We favor a uniform traffic code. We favor a motorists' financial responsibility law for protection against reckless drivers."

"We oppose any constitutional amendment that will deprive a county of at least one seat in the house of representatives."

**JAMES A. FARLEY**  
President, General Builders Supply Corp.; Chairman, New York State Athletic Commission; Chairman, New York State Democratic Committee

"I am certain that without the use of modern, scientific methods the skyscrapers for which our country is so justly proud would never have been possible. I am equally convinced that your modern use of the Ultra Violet Ray in the Toasting of your LUCKY STRIKE Tobaccos ranks with the many other great contributions to the health and comfort of millions and that it is responsible for the skyscraping sales of your famous brand."

Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray. LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED." Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating!

# Board Member Reviews Acts Leading Up To Bond Issue

Editor, The Salem News:  
I read with interest the letter of "Life-long Citizen and Taxpayer" printed in your issue of October 21st, and I believe that he, as well as all the citizens and taxpayers of Salem, is entitled to all the information the board of education, or any of its members, can give.  
To begin at the beginning, you will all recall that over a year ago to annex to the Salem city school district the Perry township school district and parts of the Butler township and Salem township school districts. From the beginning the board felt that it would be impractical to annex the Salem and Butler township school districts but that eventually it would be practical and desirable to annex the Perry township school district although there was no immediate necessity therefor. Shortly after this, however, the matter of the annexation of part of Perry township to the city of Salem came to a head and it soon became evident that the decision of the county commissioners was largely dependent on the action of our board, that is, if we consented to the annexation of the Perry township school district to the Salem city school district, the commissioners would decide in favor of the annexation of certain parts of Perry township to the city of Salem.  
Planned Grade Building  
We were thus confronted with the necessity for immediate action and we were strongly urged by the Salem Business Bureau and by many individuals to consent to the immediate annexation of the Perry township school district. We had known from the beginning and had so stated to all who urged it that the annexation of Perry township school district would necessitate a new school building, although, at first, I am frank to say, we contemplated a new grade building. To this no one who urged the annexation objected—in fact they all agreed to back the bond issue therefor. So it was, that feeling that the annexation of the Perry township school district to the Salem city school district was in itself a worthy object, and that the immediate annexation would be a help to our city, the board took prompt action in favor of the annexation.  
As we took up the question of the new school it grew upon us that a grade school would be but a temporary solution. Our high school was already crowded—for one reason because, as you all know, since building the present High school a law has been passed by the Ohio legislature requiring all children to attend school until they have graduated from high school or have reached the age of 18 years—and our Junior High was both inadequate and behind the times. Inadequate because it had no gymnasium, no assembly room, no domestic science facilities and no satisfactory manual training facilities; and behind the times because a modern Junior High school comprises the 7th, 8th and 9th grades, while a Senior High takes care of the 10th, 11th and 12th.  
Need for Junior High  
The need thus seemed to be for a new Junior High and there were two solutions to that problem: One was to build a new Junior High school building; and the other was to remodel the present Fourth street building and build a new grade school. Taking up the second solution first, we found that the building code of Ohio has changed greatly since the Fourth street school was built, and that if we made any extensive alterations, as we would have to for a real Junior High, we would be faced with the necessity of practically rebuilding that building to comply with the modern code requiring fire-proof school buildings; and we felt that to do that, and build a new grade school in addition would be just as if not more expensive and not nearly so desirable as to build a new Junior High.  
But when we came to consider the question of a new and modern Junior High we saw that it would require about the same set-up as a Senior High and perhaps a larger building because, each of them having three grades, there would naturally be more students in the Junior High than in the Senior. I think that there is no question but that classes shrink steadily in numbers from about the 3rd grade to the Senior year of High school. And so we came to the conclusion that a new High school would best solve the problem by giving us the modern system of a Junior and Senior High school of three grades each, each adequately housed—the Junior High in the present High school building and the Senior High in the proposed new building—would permit us to use with little alteration all the present Fourth street building as a grade school, and would thus relieve crowding all along the line.  
Reasons for Issue  
Our next problem was when and where this building should be built. We realize that these are hard times and that just as Mr. "Life-long Citizen and Taxpayer" says that "there are many taxpayers unemployed and perhaps do not know where their next taxes are to come from," but we also feel that that is only one angle to the problem of when to build. In the first place, if this issue should pass at this election, the addition of 113 mills (which is \$1.13 per year per \$1,000.00 of valuation) would go on the tax duplicate for the year 1931 and the first installment would be payable in December of 1931 and for 24 years thereafter; so the increase would not be immediate and it certainly seems that the present hard times should not last until December of 1931.  
In the second place, and we believe that this is the most impor-

tant building costs are unquestionably low and a building could be built more economically at this time than a year from now, or later. In the third place all public authorities have been urged to engage in all construction possible in order to help relieve, as far as possible, the present unemployment. Therefore we honestly felt that we owed it to the voters to place this issue before them at this time.  
In this respect let me impress upon you that, while four of the board are deeply in favor of the bond issue, and Mr. Reich, if I have understood him, says that he will be in favor of it, provided the estimated cost is brought within the figure asked, still the board does not wish any voter to feel that it is trying to force this building upon an unwilling electorate. We couldn't if we would. The choice is yours; but we felt and feel that we owed it to you to offer you the chance to vote upon it at this time.  
Next we were confronted with the question of where to locate the proposed new High school building. There are places on the outskirts of the city where large lots may be obtained at reasonable figures, but the board felt that a central location was a primary consideration—it may seem at times that all High school pupils ride to school, but really they don't.  
Sites Considered  
To mention two sites that were considered and rejected: There was the property immediately east of the present High school building, it had sufficient frontage on Vine street but not nearly enough depth, also it was pretty expensive; the second was the property on the south side of State street between the library and the Catholic school, we found it entirely too narrow.  
We considered other sites and finally decided that the best location was the lot on the south side of Pershing immediately west of Reilly field. Although of a peculiar shape it had sufficient size and the added advantage that it would tie together the High school and the High school athletic field. The only objection to this location was that the surroundings, with the exception of Reilly field, are far from beautiful and the building will be somewhat hidden away. However, we felt that sometime the surroundings will be improved in such a way that the building will really stand out and yet not be directly upon a main street.  
We now come to the question of the cost of the proposed building and the choice of an architect. The board knew only that it wanted a building to accommodate 600 High school pupils, with room left on the lot for possible future expansion, that it wanted proper classroom, library, laboratories, domestic science and manual training departments, an auditorium, a gymnasium with seating capacity for about 2,000 (due to the crowding of the present gymnasium during basketball games) and if possible a swimming pool and a cafeteria. We had no clear idea what this building would cost nor how it should be arranged upon the lot. We had to have an architect before we could tell at what figure to set the bond issue and we further felt that we should have a definite plan to put before the voters. We could not draw this plan ourselves, we had to have an architect do it for us, and we felt that it was only fair that he should be paid for his work at the customary rate—but I am getting ahead of the story.

**The Architects**  
In order to decide on a capable architect we asked five—or rather we chose five from many applicants—to submit preliminary plans and estimates of costs of construction. They were: Clarence A. Kissinger, The Owsley Company, R. F. Medicus Engineering Co., Cock & Canfield and our City Engineer, F. S. Barkhoff. These gentlemen submitted their plans and estimates and it appeared that F. S. Barkhoff and The Owsley Co. had worked under the impression that the board had intended to buy property through to Lincoln avenue to make an entrance to the building from Lincoln. We had discussed this plan but abandoned it because to the high cost but we had failed to advise Barkhoff and Owsley of the abandonment. Therefore we felt that Barkhoff and

Owsley should be permitted to revise their plans.  
From the estimates made by the architects we arrived at the following figures for the bond issue: For the building \$340,000.00; for equipment \$20,000.00; and for land \$25,000.00; total \$385,000.00. Frankly I am of the opinion that the estimate of \$20,000.00 for equipment is much too low—that around \$35,000.00 would be nearer a correct figure. For this mistake I am as much to blame as any member of the board.  
While Mr. Barkhoff and The Owsley company were working on their revised plans the firm of Miller & Son were suggested to me as excellent school architects by Brooks Church, city engineer of Girard, and a son of the late W. F. Church of this city, whose unexpired term on the board I have the honor to be filling. I asked that this firm be permitted to submit a plan and estimate and after considerable discussion it was agreed that Miller & Son, together with C. K. Giffen of Canton, and Charles J. and Chris Rieger of Pittsburgh, could submit plans and estimates at the time Barkhoff and Owsley submitted their revised plans and estimates.  
**Elimination Process**  
After Barkhoff and Owsley had submitted their revised plans and estimates and Miller & Son and Reiger and Giffen had submitted their plans and estimates, the board, at the following meeting (the regular meeting of October 6th I think) considered again all eight of the plans before them and unanimously decided to narrow the consideration down to three parties: F. S. Barkhoff, The Owsley Co. and Miller & Son. At a special meeting a week later a majority of the board decided that the plan of the Owsley Co. offered the best solution of our problem of how to fit the building we wanted upon the lot we had chosen. Upon the motion to employ The Owsley Co. as our architect I voted "No" not because I did not like the plan submitted by that company, but because I preferred the plan submitted by Miller & Son—Owsley was my second choice. Mr. Reich voted "No" because, I believe, he preferred the plan of Mr. Barkhoff.  
What we wanted was the architect with the greatest ability and it seems to me that the best test of that—aside from the fact that they all admitted that they were the best—was the excellence of his plan in solving our problem. In this connection I would like to say that The Owsley Co. is working upon their plan to bring their estimate within the bond issue and I believe that they have done this already and I am in hopes that their estimate for the building, exclusive of the swimming pool will be under \$340,000.00. At any rate we pace to let the voters know exactly what we estimate we can give them.  
It is possible that the bids this year, if the issue is passed, will run considerably below the estimate; and it is because of the prevailing low prices this year that four of the board would like to see the building built this year even if we have to pass a bond issue for a pool at another time. The difference for equipment, if any, I believe we can make up for from our general fund, just as we were able to finish the second floor of the Reilly school and build the Reilly field bleachers and wall.

**Architect's Fee**  
Now as to the Owsley company's compensation. We have contracted to employ them at the regular architect's fee of 5 per cent (which by the way in many places is 6 per cent) which is included in the estimate and also includes full time supervision. We all felt—and contrary to the report in the paper this was suggested by Mr. Reich—that if the bond issue did not pass the Owsley company should be paid for the work that it has done and will do in preparing what is known as the "preliminary" plans and sketches, the usual fee for which is 1 per cent of the estimate and is included in the 5 per cent if the bond issue passes. We did not wish this to be paid if the bond issue failed this time, however, but felt that payment should be delayed as long as possible in the event of the

## THE DAY In Sports

FISTIC RACKET FADES  
AMATEURS MEET HERE

Throughout the United States boxing, five years ago a sport which attracted gates whose net proceeds ran into five figures consistently, has been on the decline. Battles which promoters are attempting to ballyhoo into prominence are postponed from time to time, of late, because of "injuries" to one of the principals. But more often the postponement and usually, cancellation, of the bout is effected to avert injury to the purse of the promoter for fans are no longer interested in the sport to the extent of a few years ago.

Just last week a battle was scheduled in New York City but it was immediately postponed and later cancelled when one of the headline pugilists sustained a minor injury training. It was later revealed that the fight was really cancelled because the advance ticket sale amounted to less than \$1,000. It may be the depression but the fact that the unemployment situation has little effect on attendance at football games to a certain extent refutes any argument on that point. Undoubtedly the fault lies with boxing racketeers and the lack of a class of pugilists similar to that organization of ringmasters that performed in the day of Jack Dempsey, Benny Leonard and others.

But another big point is that Tex Rickard has as yet not been replaced. Rickard pulled the fight game from the back alleys, legitimized it in many states where it was outlawed and made it a sport that attracted the "400" of every American metropolis. Of late the game is becoming a mere racket and is sliding back just where it was when Rickard started.

Amateur bouts are attracting more attention than the professional bouts. Alliance and Canton, smooch-pure performance before large crowds every night and now Salem, fistic addicts will be given their opportunity to view some of their can fistic talent in action. A card of battles, claimed to consist of 30 rounds, will be held at the Memorial building gym tonight.

Saturday's dope didn't go so bad, the only upsets appearing in Navy's winning over Princeton with such ease, while Southern California, though picked to trim Stanford, wasn't figured to win a 41-12 margin. Villa Nova's win over Temple. The defeat of Tennessee by North Carolina were other surprises. Notre Dame fooled many by wall-popping Pitt, but all in all 17 were picked right out of 23, two games resulting in ties.

The draws resulted in the Chicago-Mississippi and Army-Yale games, foremost teams mentioned being picked in each case.

## Bruder, Russell Back In Lineup; Hanley In Pessimistic Attitude

By WILLIAM WEEKES  
(Associated Press Sports Writer)

CHICAGO, Oct. 28.—Coach Dick Hanley will send Northwestern at the peak of its power against Minnesota Saturday, but he is even more pessimistic than when he had a flock of cripples over which to worry.

"My boys have had it too easy," he said yesterday. "Without Bruder, Russell and Kent they ran up points on Illinois and Ohio, and now that Bruder and Russell are back, I'm afraid they will not take Minnesota seriously enough."

### Wastes No Time

Hanley wasted no time in getting down to serious business for the battle at Minnesota Saturday—which will remove one more team from the Big Ten race. He had Russell at quarter, Bruder and Hanley at halves and Bentner at fullback in a long drill on new plays yesterday, leaving Lefty Leach and Al Moore both regulars while Bruder and Russell were out at the head of a big list of reserve backs.

The regular set, which averages about 183 pounds, looked good and gave promise of supplying the running attack that has been missing. Minnesota will have had two weeks of preparation for the game and undoubtedly will be immensely improved. Coach Fritz Crisler has been working hard on the offense that was just beginning to shape

up when the Gophers defeated Indiana, 7 to 0, two weeks ago.

**Purdue Works Aerial**  
Purdue will get plenty of work on forward passes this week. Coach Noble Kizer was displeased with the Boilermaker passing against Wisconsin although it produced their touchdown.

Wisconsin may go to Ohio State without Furry Omen capable reserve fullback. The Badger yesterday was kicked in the face in a scrimmage and was taken to the hospital. The regulars were rested yesterday but were due for a full sized workout today. Ohio another team having two weeks in which to prepare for this week's task, has been working hard and quietly and the battered Badgers may run into a big surprise.

Indiana took a thorough beating from Southern Methodist last Saturday, but when the squad landed in Bloomington yesterday, it was just in time to go through one of its longest sessions of the season. The Notre Dame football strategy yesterday gave his first and second elevens a day off, but bused himself with the third, fourth, fifth and sixth Irish elevens, the members of which probably will blossom out as regulars in a couple of years.

## Salem, Wellsville Clash For 22nd Time On Grid Saturday

Since the year 1905, Salem and Wellsville High school football teams have clashed 20 times, the Quaker City representatives winning verdicts in 16 of the games. The rival schools meet in their 21st grid encounter at Wellsville Saturday.

Only four times out of the 20 games played has Wellsville been able to defeat Salem grid teams while in the last five years the Red and Black has taken five straight contests from the southern county school. In 1923, when Wellsville had its strongest team in history, the year when Wally Pignatone, Fat Young and others played with the Orange and Black, is the first time Wellsville trimmed Salem in the last 10 years.

Salem held the opposition scoreless in all but eight of the encounters and rolled up a total of 397 points to 68. Salem's greatest margin of victory came when Captain Frank "Hink" Spencer's 1920 Red and Black gridgers amassed an 81-0 score while Wellsville's most decisive victory was won in 1923 by a 19-0 score.

**Salem Wins In 1929**  
Last year Salem outplayed Wellsville throughout, the visiting team's only score coming in a 70-yd run from the kick-off by Kessler who is back with his team again this season. Wellsville as yet has not been de-

## Touchdown Made In Game Said Illegal

NEW HAVEN, CONN., Oct. 28.—The touchdown made by the Army against Yale in the bowl Saturday, may have been a questionable one under the rules. Yale men said after viewing motion pictures of the game.

It is claimed that Kilday, in making the touchdown, had help from behind in violation of the rules. The pictures showed that Yale had held for three downs, with the Army but a yard to go, that Kilday made an upright charge at the line and was thrown back but as he came down Stecker charged in, hit him squarely in the back and lifted him far enough to clear the goal line.

It is claimed the pictures show that Kilday had halted before this was done.

The pictures were scrutinized by Head Coach Mal Stevens, Coach Adam Walsh, Tad Jones, Dean Clarence Mendell and Athletic Manager Harold P. Woodcock.

## Knute Works With Reserve Gridgers

SOUTH BEND, IND., Oct. 29.—Coach Knute Rockne is doing a little dealing in futures.

The Notre Dame football strategy yesterday gave his first and second elevens a day off, but bused himself with the third, fourth, fifth and sixth Irish elevens, the members of which probably will blossom out as regulars in a couple of years.

## Attractive Boxing Program Arranged For Amateur Show

Some of Columbiana county's leading amateur pugilists, 12 of them from Salem and vicinity, mix it in the second amateur fight show of the year, scheduled at the Memorial building gymnasium tonight.

A card of 30 rounds is planned by C. W. "Ducky" Youtz of Salem, who is promoting the affair. Youtz announced this morning that an attractive program of fistic entertainment has been arranged with a large crowd being expected to turn out.

Salem's representatives in the show, Youtz stated, will be Young Julian, Young McGirk, Hal Reed, Russ Kelley, Joe Simons, Jackie Grubbs, Joe Smith, Walter Dickey, Slim Buford, Johnny Varnitis, Arnold Zellars and Young Smaley.

Columbiana, Lisbon, Minerva, Washingtonville and East Palestine will have lads in the affair, Youtz stated.

Young Jeff of Lisbon, who has competed in professional bouts in this vicinity for several years, will referee the battles.

## MOVIES

### AT THE GRAND

"The Big House"  
A compelling and extremely moving narrative for the effects of prison environment on a young boy is told in "The Big House" which opened last night at the Grand theater.

George Hill the director achieved a masterful touch in playing a searchlight on the devastating aspects of contact with hardened criminals the frustration of confinement and the pathetic separation of the boy from the girl he loved.

Using a powerfully-staged penitentiary riot as the climax of the story, the director has built up a series of episodes which hold the attention from the first moment to the last and leave one at the conclusion of the picture with plenty of food for thought.

The acting of the large cast is well high perfect, such players as Lewis Stone, Wallace Beery, Chester Morris, Robert Montgomery, J. C. Nugent, Karl Dane, Leila Hyams, Claire MacDowell and Madhu Ben Zvi giving what seems to this reviewer, unparalleled performances of sterling worth.

Scenes which will keep the observer sitting up straight in his seat include the breaking in of the prison doors by huge army tanks, the wild revolt of hundreds of convicts in the prison yards, the mad demonstration in the cell house and the dramatic death scene of Wallace Beery.

### AT THE STATE

"Eyes of the World"  
Beautiful romance, powerful drama and natural scenic effects have been combined in an unusually entertaining motion picture by Henry King whose "Eyes of the World," an Inspiration-United Ar-

tists picture, opened at the State theater with Una Merkel, John Holland, Nance O'Neil and Brandon Hurst in the featured cast.

In this worthy dramatization of the popular book by Harold Bell Wright, Director King has achieved an out-door romance that compares favorably with his classical "Tolable David" and "The Winning of Barbara Worth."

The story is placed in the mountain country of California and unfolds the romance of a simple maiden of the hills who meets and falls in love with a young artist from the cities.

Their tender adventure is rudely disturbed through the scheming of an unscrupulous, love-starved matron who desires the companionship of the artist.

The story moves quickly through an amazing pattern-work of thrilling and dramatic scenes, rising to crescendo of exciting action when revenge, remorse and forgiveness each have their moments of triumph.

### ABOUT TOWN

#### Observe Day of Prayer

Members of the Women's Christian Temperance union will observe Wednesday as a day of prayer for the cause of temperance.

They are complying with a request from Mrs. Florence Richards, of Toledo, state president, made at the state convention last week at Youngstown.

#### Visit Home

Twenty-three members of the Women's Relief corps, including most of the officers, went to Madison Monday to visit the Home for Soldiers' Widows. They took with them candy and jellies for the inmates.

There are 39 inmates in this home.

#### Legion Auxiliary

At a meeting of the American Legion auxiliary Monday afternoon at the home, East State street, it was planned to take part in the Armistice day parade.

The next session will be on Tuesday evening, Nov. 25, when the new officers will be installed.

#### Injured In Wreck

LISBON, Oct. 28.—Dr. E. E. Elwee sustained bruises in an accident Sunday night. He was driving on the Salem-Lisbon road when his automobile was sideswiped by a car going south. Both cars were badly damaged.

#### City Hospital Notes

Zachariah Kashubara, Canfield, has entered the Salem City hospital for medical treatment.

Mrs. Cora Sheehan, Lisbon, is in the hospital for surgical treatment. Mrs. Russell Burns, Salem, had her tonsils removed at the hospital.

#### Junior Missionary Society

Members of the Junior Missionary society of the First Friends church will meet Wednesday afternoon after school hours, at the church.

### MAN INJURED AS CAR HITS POLE

Suburban Resident In Hospital Here; Sustains Serious Hurts In Accident Near Salem

William Leigh, near Garfield, is in Central Clinic hospital here, suffering from injuries sustained when his automobile crashed into a telephone pole on the Salem-Damascus road near here Sunday.

Leigh swerved his machine to the side of the road to avoid colliding with an oncoming car. His automobile left the highway and crashed head-on into the pole, throwing him out.

He sustained serious injuries about the head and arms and bruises about the body. His condition was reported good at the hospital this afternoon.
